Disclosure on Risk Based Capital Adequacy

Under Pillar III of Basel III For the Year Ended on 31st December, 2021

you can bank on us

Purpose and Basis of the Market Disclosure

The Pillar III Disclosures comprise detailed information on the underlying drivers of risk-weighted assets (RWA), capital, leverage, liquidity ratios, and other key business parameters as on 31 December, 2021 in accordance with the Risk Based Capital Adequacy Guidelines under Basel III. The global financial turmoil in 2007-2008 manifested the effect of insufficient risk governance in the financial institutions. Financial systems across the world had to wrestle with the trickle-down impact of that financial crisis. However, the significant lesson learned from that crisis is without prudential governance standards, the financial sector's resiliency in the event of adverse market dynamism would be marred. Basel III reforms are the Basel Committee on Banking Supervision (BCBS) responses to revitalize the banking sector's ability to absorb shocks arising from financial and economic stress, thus reducing the risk of spillover from the financial sector to the real economy. Basel III regime in Bangladesh entered into force from January 1, 2015, with a "Revised Guidelines on Risk-Based Capital Adequacy (RBCA)" promulgated by Bangladesh Bank vide BRPD Circular No.18 dated December 21, 2014. The key segments of Basel III standards are centered on three pillars:

Pillar 1 (Minimum Capital Requirement): Sets the minimum capital requirements for credit risk, market risk and operational risk.

Pillar 2 (Supervisory Review Process): Considers through the Supervisory Review and Evaluation Process whether further capital is required in addition to Pillar 1 calculations.

Pillar 3 (Market Disclosure): Aims to provide a consistent and comprehensive disclosure framework that enhances comparability between banks and further promotes improvements in risk management. Pillar 3 requires all material risks to be disclosed, enabling a comprehensive view of the bank's risk profile.

The purpose of Market Discipline is to complement the minimum capital requirements and the supervisory review process. The aim of introducing it in the revised framework is to establish a more transparent and more disciplined financial market so that stakeholders can assess a bank's position regarding holding of assets and identify the risks relating to the assets and capital adequacy to meet probable loss of assets. With reference to the framework of BCBS on Pillar 3, the key principles of the disclosure are as follows:

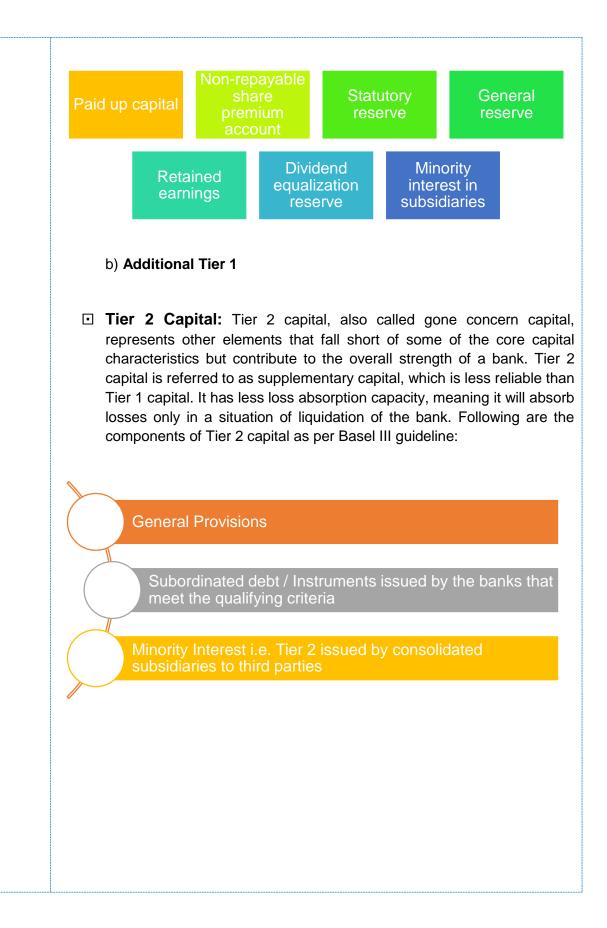

- **Clarity:** Disclosures must be presented in a form that will be readily understood by key stakeholders, communicated through an accessible medium and easy to find.
- Comprehensiveness: Disclosures should describe a bank's main activities, all significant risks and changes in risk exposures between reporting periods, and management responses, while also providing sufficient qualitative and quantitative information on the bank's processes and procedures for identifying, measuring and managing risks.
- Meaningfulness/usefulness: Disclosure must highlight both significant current risks and emerging risks and how these are managed. References and/or linkages to balance sheet or income statement items that allow for reconciliations must also be disclosed.

- Consistency over time: This allows stakeholders to identify and understand trends and changes. Disclosures allow users to understand the bank's business, its risk profile and its management practices. Any significant change in disclosures must be highlighted and explained.
- **Comparability**: Comparable disclosures are critical for allowing stakeholders to assess the relative performance of banks and business activities and to compare prudential metrics, risks and risk management across banks and jurisdictions.

The information provided in the Market Disclosure is consistent with the relevant accounting standards set by Bangladesh Bank from time to time. It has been prepared based on the bank's audited financial statements and is available on the bank's website (<u>www.mutualtrustbank.com</u>).

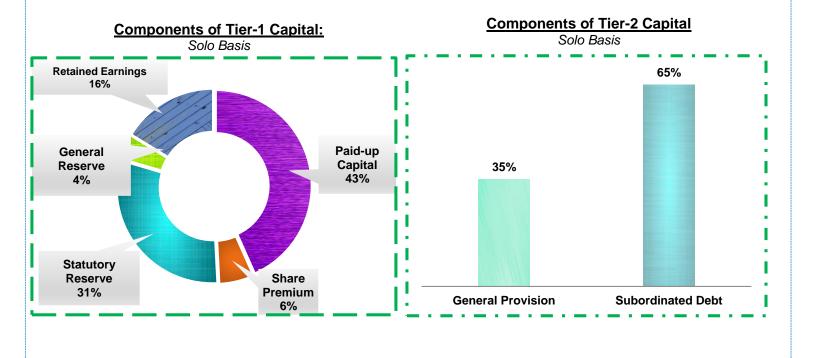

1. Scope of the Application 1a. Qualitative Disclosure		
a) The name of the top	Mutual Trust Bank Limited commenced its operation on 24 October, 1999. The bank is also listed with Dhaka Stock Exchange Ltd. and Chittagong Stock	
corporate entity in the group to which this guidelines applies.	Exchange Ltd. It has 119 Branches, including 14 SME/Agri Branches across Bangladesh. Moreover, the bank has 201 Agent Banking Centre, 33 Sub- branches and 4 Air Lounges all over the country.	
	MTB SUBSIDIARIES	
	The bank has three subsidiaries situated within and outside of the country. A brief description of MTB's subsidiaries is given below:	
b) An outline of differences in the basis of consolidation for accounting and regulatory purposes, with a brief description of the entities	MTB Securities Ltd : MTB Securities Limited was incorporated in Bangladesh as a private limited company on 01 March 2010 and converted into public limited company in the year 2015 under the Companies Act, 1994. The company has started its commercial operation on 23 September 2010 after getting approval from the Bangladesh Securities and Exchange Commission (BSEC) as a separate entity. As a fully owned subsidiary of Mutual Trust Bank Ltd, MTBSL is engaged in buying and selling of securities for its customers.	
within the group: (i) that are fully consolidated, (ii) that are given a deduction treatment; and	MTB Capital Ltd: MTB Capital Limited (MTBCL) is a wholly owned subsidiary of Mutual Trust Bank Limited and a full-fledged merchant bank, licensed by the Bangladesh Securities and Exchange Commission (BSEC) in December 2010. MTBCL was incorporated to explore new markets and meet the demand for merchant banking services. The company strives to extend cooperation and value added services to its respected clients.	
(iii) that are neither consolidated nor deducted	MTB Exchange (UK) Ltd: Bangladesh Bank has accorded approval to the bank for opening a fully owned subsidiary company in the name of MTB Exchange (UK) Limited in August 2010. The Company was incorporated on 14 June 2010 under the Companies Acts 2006 of UK as a private company limited by shares. The registered office is located at 25 White Chapel Road, London.	
	The main activities of the exchange house are to carry on the remittance business and to undertake and participate in transactions, activities and	

	operations commonly carried on or undertaken by remittance and exchange houses.			
c) Any restrictions, or other major impediments, on transfer of funds or regulatory capital within the group	Not Applicable			
	1b. Quantitative Disclosure			
a) The aggregate amount of surplus capital of insurance subsidiaries (whether deducted or subjected to an alternative method) included in the capital of the consolidated group	Not Applicable			
	2. Capital Structure			
	2a. Qualitative Disclosure			
a) Summary information on the terms and conditions of the	MTB's regulatory capital requirement and eligible instruments for capital components are measured pursuant to the Bangladesh Bank's guidelines on Risk-Based Capital Adequacy (Revised Regulatory Capital Framework for Banks in line with Basel III). The Basel III framework emphasized raising the quality and level of capital to ensure banks can absorb losses on both the going concern and the gone concern basis. The framework also entails enhanced risk coverage of the capital framework. MTB's regulatory capital consists of the following two components:			
main features of all capital instruments, especially in the case of capital instruments eligible for inclusion in CET 1, Additional Tier 1 or Tier 2.	■ Tier 1 Capital: Tier 1 Capital, also known as going concern capital, is the core capital component, which forms the basis of the bank's financial strength. It is the fundamental part of the capital base that fend off the bank from unforeseen losses arising from acute financial and economic fallout, enabling the bank to perform seamlessly by enhancing loss- absorbing capacity. In accordance with the Basel III guideline, Tier 1 capital consists of common equity tier 1 (CET1) and additional tier 1 (AT1).			
	a) Common Equity Tier 1:			
	Common Equity Tier 1 (CET1) capital shall consist of sum of the following items:			

	2b. Quantitative Disclosure				
Particulars	Solo	Consolidated			
Common Equity Tier 1 (CET1) Capital:					
Paid-up Capital	8,124,956,590	8,124,956,590

Total Eligible Capital	29,443,041,824	30,343,196,293

Capital Calculation Approach

MTB adheres to the RBCA guidelines of Bangladesh Bank while gauging its capital adequacy requirement. The bank adopted standardized approach for credit & market risk exposures, and basic indicator approach for operational risk exposure. We emphasize the following principles while assessing our capital base:

A strong Capital to Risk Weighted Asset Ratio (CRAR); •

Maintaining capital at a reasonable level to absorb all material risks;

Capital Management

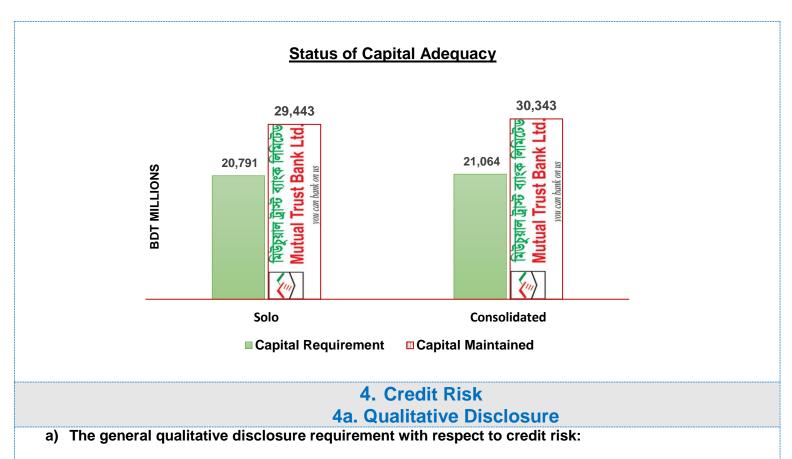

Capital adequacy calculation gives the bank an indicative resolution for the capital requirement; capital management, on the other hand, plays a vital role in maintaining the overall capital at an adequate level. MTB's capital management is underscored by a sound capital assessment process, followed by a risk-based long-term capital planning approach. Some of the mentionable initiatives to ensure adequate capital of the bank are as follows:

a) A summary discussion of the bank's approach to assessing the adequacy of its capital to support current and future activities

	 Encouraging borrowers to complete external credit rating to assess counterparty credit risk status, and minimizing regulatory capital requirements; Improving and enhancing collateral coverage through efforts to obtain eligible collateral; Stressing internal capital accretion. However, if needed, issuing qualified debt instruments to meet capital requirement; Growth projection in line with RWA composition and capital planning trajectory; Assessing risk profile of new clients and onboarding clients with satisfactory external credit rating. 	
3b. Quantitative Disclosure		

Capital Adequacy	Solo	Consolidated
Capital Requirement for Credit Risk	18,345,260,414	18,304,457,148
Capital Requirement for Market Risk	689,699,837	943,353,709
Capital Requirement for Operational Risk	1,756,029,882	1,815,776,338
Total Capital Requirement	20,790,990,132	21,063,587,194
Total Eligible Capital	29,443,041,824.17	30,343,196,293
Capital to Risk Weighted Asset Ratio (CRAR) (%)	14.16%	14.41%
Common Equity Tier-1 Capital Ratio (%)	7.75%	7.86%
Total Tier 1 Capital Ratio (%)	9.50%	9.64%
Tier 2 Capital Ratio (%)	4.66%	4.76%
Required Capital Conservation Buffer (%)	2.50%	2.50%
Maintained Capital Conservation Buffer (%)	3.50%	3.64%

As per Bangladesh Bank letter (Reference No. DBI-4/119/2022-458 dated April 04, 2022 and DOS (CAMS) 1157/41(Dividend) /2022-1967, dated 10 April 2022 and DOS (CAMS) 1157/41(Dividend) /2022-2003, dated 13 April 2022), the provision of Taka 256.73 crore has been deferred which is equivalent to the shortfall amount under general provision at the end of year 2021. The deferred provision will be maintained in next three (03) years.

i. Definitions of past due and impaired (for accounting purposes)

To define past due for loan classification and provisioning purposes, the bank diligently follows guidelines and circulars promulgated by Bangladesh Bank from time to time. Since the onset of the pandemic, Bangladesh Bank brought forth several guidelines on loan classification and provision requirements, considering the COVID-19 impact. MTB abided by the instructions laid down by Bangladesh Bank while determining past due for loan classification purposes. However, considering the BRPD Circular No.14 dated September 23, 2012, and its subsequent amendments, loans and advances are categorized under the following four categories for the purpose of classification:

- Continuous Loan
- Demand Loan
- Fixed Term Loan
- Short-term Agricultural and Micro Credit

Continuous Loan & Demand Loan: Criteria of Classification (In Months)						
	Category	STD SMA		ss	DF	BL
	Cottage, Micro & Small	Overdue < 2	2 ≥ Overdue < 6	6 ≥ Overdue < 18	18 ≥ Overdue < 30	30 ≥ Overdu
SMEF	Medium Enterprise	Overdue < 2	2 ≥ Overdue < 3	3 ≥ Overdue < 9	9 ≥ Overdue < 12	12 ≥ Overdu
CF, BHs & Other		Overdue < 2 2 ≥ Overdue < 3 3 ≥ Overdue < 9		3 ≥ Overdue < 9	9 ≥ Overdue < 12	12 ≥ Overdu
Fixed Term Loan: Criteria of Classification (In Months)						
Category		STD	SMA	SS	DF	BL
	Cottage, Micro & Small	Overdue < 8	8 ≥ Overdue < 12	12 ≥ Overdue < 24	24 ≥ Overdue < 36	36 ≥ Overdu
SMEF	Medium Enterprise	Overdue < 8	8 ≥ Overdue < 9	9 ≥ Overdue < 15	15 ≥ Overdue < 18	18 ≥ Overdu
CF, LP, HF, BHs & Other		Overdue < 8	8 ≥ Overdue < 9	9 ≥ Overdue < 15	15 ≥ Overdue < 18	18 ≥ Overdu
	SI	nort Term Agricultural	and Micro Credit: Crite	ria of Classification (In Mo	nths)	
	Category	STD	SMA	\$\$	DF	BL
Short Term Agricultural and Micro Credit		Period of up to 12 months	NA	or beyond but period of up	After a period of 36 months or beyond but period of up to 60 months	After a period of months or beyo

Loan classification methodology of the aforesaid categories are as follows:

ii. Description of approaches followed for specific and general allowances and statistical methods:

Pursuant to Bangladesh Bank guidelines, banks need to set aside funds as general provision and specific provision subsequently for unclassified and classified loans. Those provisions against loans and advances are made to navigate the impending crisis stemming from the bad loans. MTB adheres to Bangladesh Bank guidelines while determining provision requirements for loans and advances. The provision rates prescribed by Bangladesh Bank are as follows:

	RATE OF PROVISION									
	Short Term		Consumer Financing			ing	Small & Medium Enterprise Financing		Loans to	
Par	ticulars	Agri. Credit & Other tha Microcredit HF, LP 8 Card		HF	LP	Only Card	Cottage, Micro & Small Credits under CMSME	Medium Enterprise Financing	BHs/MBs/S Ds	All other credit
UC	Standard	1%	2%	1%	2%	2%	0.25%	0.25%	2%	1%
	SMA	0%	2%	1%	2%	2%	0.25%	0.25%	2%	1%
	SS	5%	20%	20%	20%	20%	5%	20%	20%	20%
Classifie	I DF	5%	50%	50%	50%	50%	20%	50%	50%	50%
	B/L	100%	100%	100%	100%	100%	100%	100%	100%	100%

iii. Discussion of the bank's MTB's Credit Policy Manual (CPM) is reviewed by its Board of Directors periodically, depending upon the regulatory reforms, internal strategies, and market dynamism. The policy manual outlines the organizational structure,

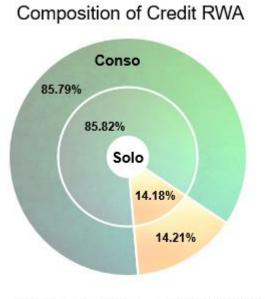

defined roles & responsibilities, and delegation authority for an apt credit appraisal process. It also addresses regulatory issues and establishes control points for holistic credit risk management. MTB's credit approval process entails all plausible aspects for borrowers' risk assessment and mitigation. The bank manages credit risk by continuously measuring and monitoring risks at both obligor (borrower) and portfolio levels. We have also deployed the Internal Credit Risk Rating System (ICRRS) model and other relevant Bangladesh Bank guidelines in our credit appraisal/approval process.

Moreover, credit risk appetite plays a vital role in devising the overall credit strategies of the bank. It sets out the perimeter for different credit aspects, which helps in shaping meticulous and wide-ranging credit-control mechanisms. We also provide emphasis on our clients' external credit rating while onboarding and retaining them. We underscore good governance, sound risk assessment, and timely approvals in our lending processes to accelerate quality credit operations. Thus, the bank's credit policy encompasses all operational issues of credit, right from the selection of borrower to the ultimate recovery, including transfer process of delinquent account and treatment of slow, overdue accounts, Special Mention Accounts (SMA), and classified loan accounts.

4b. Quantitative Disclosure

a) Composition of Credit Risk Weighted Assets:

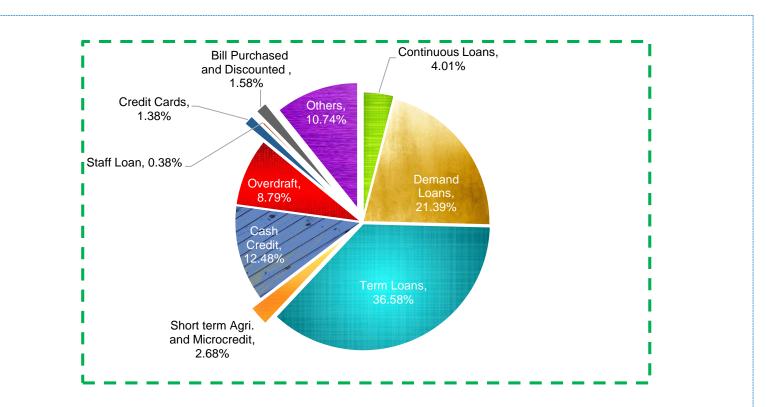

Credit Risk Weighted Assets	Solo	Consolidated
On balance sheet	157,439,639,697	157,031,607,044
Off balance sheet	26,012,964,439	26,012,964,439
Total	183,452,604,136	183,044,571,483

On balance sheet Off balance sheet

b) Total gross credit risk exposures broken down by major types of credit exposure:

Particulars	Amount (Solo)
Continuous Loans	8,930,339,393
Demand Loans	47,689,836,492
Term Loans	81,537,221,535
Short term Agri. Credit and Microcredit	5,968,591,628
Cash Credit	27,811,006,373
Overdraft	19,602,014,476
Packing Credit	639,466,141
Credit Cards	3,072,733,014
Staff Loan	848,343,729
Lease Finance	424,295,342
Offshore Banking Unit	22,515,586,635
Others including Islamic Banking Branches	357,052,412
Subtotal	219,396,487,169
Bill Purchased and Discounted	3,527,713,085
Payable in Bangladesh	2,219,022,590
Payable outside Bangladesh	822,365,902
Offshore Banking Unit	486,324,593
Total	222,924,200,254

c) Geographical distribution of exposures, broken down in significant areas by major types of credit exposure:

Particulars	Amount (Solo)
Dhaka Division	175,154,050,689
Chattogram Division	35,444,139,368
Sylhet Division	2,188,895,666
Mymensingh Division	1,081,138,213
Rajshahi Division	4,926,950,065
Khulna Division	1,001,037,949
Rangpur Division	2,893,261,804
Barisal Division	234,726,500
Total	222,924,200,254

Geographical Distribution of the Portfolio		
Barisal Division	0.11%	
Rangpur Division	1.30%	
Khulna Division	0.45%	
Rajshahi Division	2.21%	
Mymensingh Division	0.48%	
Sylhet Division	0.98%	
Chattogram Division	15.90%	
Dhaka Division	78.57%	

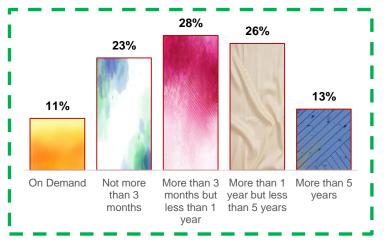

MTB | Disclosures on Risk Based Capital for the Year 2021

d) Industry or counterparty type distribution of exposures, broken down by major types of credit exposure:

Particulars	Amount (Solo)
Agriculture	3,188,679,653
RMG	37,054,273,187
Textile	12,409,196,162
Ship Building	2,005,332,100
Ship Breaking	3,803,379,886
Other Manufacturing industry	61,140,856,876
SME loans	27,820,139,675
Construction	4,134,021,171
Power, Gas	3,102,653,120
Transport, Storage and Communication	881,582,573
Trade Service	24,018,150,476
Commercial real estate financing	5,398,960,541
Residential real estate financing	15,674,580
Consumer credit	16,223,382,149
Capital Market	1,177,884,216
NBFIs	8,354,889,242
Others	12,195,144,648
Total	222,924,200,254

e) Residual contractual maturity breakdown of the whole portfolio, broken down by major types of credit exposure:

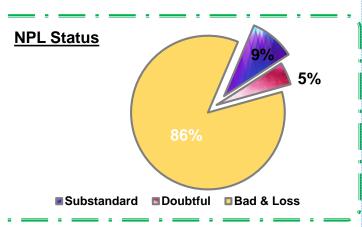

Particulars	Amount (Solo)	
On Demand	23,765,975,060	
Not more than 3 months	51,409,793,941	
More than 3 months but less than 1 year	61,688,201,301	
More than 1 year but less than 5 years	58,065,389,828	
More than 5 years	27,994,840,124	
Total	222,924,200,254	

MTB | Disclosures on Risk Based Capital for the Year 2021

f) Amount of impaired loans and if available, past due loans, provided separately;

Particulars	Amount (Solo)
Substandard	1,187,166,762
Doubtful	661,520,499
Bad & Loss	11,258,333,739
Total	13,107,021,000

g) Specific and General Provisions:

Particulars	Amount (Solo)
Provision for Unclassified Loans & Advances	1,449,802,841
Provision for Classified Loans & Advances	5,956,786,000
Provision for Off Balance Sheet Items	1,147,890,040
Total	8,554,478,881
Special General Provision-COVID-19	766,502,000

h) Gross Non-Performing Assets (NPAs):

Particulars	Amount (Solo)
Non-Performing Assets (NPAs) to Outstanding Loans & Advances (%)	5.88%
Opening Balance of CL in 2021	9,387,261,774
New Addition in CL during 2021	7,005,579,990
Reductions during the year 2021	3,285,820,764
Closing Balance of CL in 2021	13,107,021,000
Movement of specific provisions for NPAs	
Opening Balance	4,181,064,000
Add: Provision made during the year	732,840,719
Add: Recoveries of amounts previously written off	44,858,845
Add: Transferred from unclassified provision	1,352,042,382
Less. Waiver during the year	
Less: Adjustment for Loan written off during the year	(354,019,947)
Closing Balance	5,956,786,000

5. Equities: Disclosures for Banking Book Position 5a. Qualitative Disclosure				
The general qualitative disclosure requirement with respect to equity risk:				
	MTB Securities Limited, a corporate member of Dhaka Stock Exchange Limited, executes MTB's stock brokerage functions. The bank's equity shareholdings are primarily for capital gain or dividend income purposes. However, MTB has some investments for relationship and strategic reasons.			
	Investment in equity securities is broadly categorized into two parts:			
	• Quoted securities (common or preference shares and mutual funds traded in the secondary market). These securities are bought and held primarily for the purpose of selling them in future or held for dividend income. These are reported at cost. Unrealized gains are not recognized in the profit and loss statement, but provision is made for diminution in value of investment.			
a) Differentiation between holdings on which capital gains are expected and those taken under other objectives including for relationship and	Unquoted securities- Investment in unlisted securities is reported at cost under cost method. Adjustment is given for any shortage of book value over cost for determining the carrying amount of investment in unlisted securities.			
strategic reasons	All investment in Government securities is initially recognized at cost price. The valuation methods of investments used are:			
	Held to Maturity (HTM) Investments which have 'fixed or determinable payments' and are intended to be 'held to maturity' other than those that meet the definition of 'held at amortized cost', are classified as held to maturity (HTM). These investments are subsequently measured at amortized value as per Bangladesh Bank guideline.			
	Held for Trading (HFT) Investments classified in this category are acquired principally for the purpose of trading or if designated as such by the management. After initial recognition, investments are measured at market value and any change in the market value is recognized in the statement of profit and loss for the period in which it arises.			
b) Discussion of important policies covering the valuation and accounting of equity holdings in the banking book	Both quoted and unquoted equity securities are valued at cost, and necessary provisions are maintained if the prices fall below the cost price. As per Bangladesh Bank (BB) guidelines, HTM equity securities are amortized annually, and Held-for-Trading (HFT) securities are mark-to-market (revalued) once a week.			
5b. Quantitative Disclosure				

5b. Quantitative Disclosure

a) Total Unrealized gains/ losses:

Particulars	Amount (Solo)
Holding cost of quoted shares	1,160,536,014
Market value	1,145,967,363
Unrealized gain/loss	(14,568,651)

b) Capital Charge on Equities:

Capital Charge on equities	Solo	Consolidated
Specific Risk	123,427,999	250,135,655
General Market Risk	123,427,999	250,135,655

6a. Qualitative Disclosure

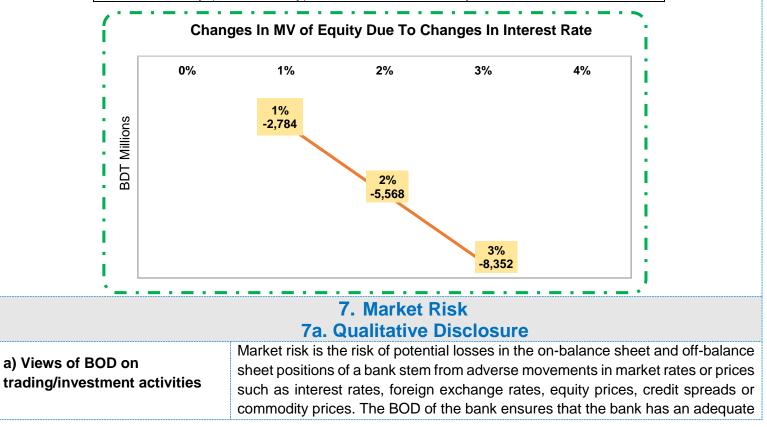

a) The general qualitative disclosure requirement including the nature of IRRBB and key assumptions, including assumptions regarding loan prepayments and behaviour of Interest rate risk is the potential impact on a bank's earnings and net asset values due to changes in market interest rates. It affects the underlying value of the bank's assets, liabilities and off-balance sheet instruments because the present value of future cash flows (and in some cases, the cash flows themselves) changes when interest rates changes. Interest Rate Risk is the risk which affects the Bank's financial condition due to change of market interest rates. Changes in interest rates affect both the current earnings (earnings perspective) and also

non-maturity frequency	deposits, and of IRRBB	the net worth of the Bank (economic value perspective). Bank assesses the interest rate risk both in earning and economic value perspective.
measurement		The short-term impact of changes in interest rates is on the bank's Net Interest Income (NII). The longer-term changes in interest rates affect asset cash flows, liabilities, and off-balance sheet items. It poses a risk to the bank's net worth, arising from all re-pricing mismatches and other rate-sensitive positions. MTB assesses the impact of interest rate changes on the bank's earnings and economic value through a stress testing module and gap analysis method.

6b. Quantitative Disclosure

a) The increase (decline) in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to management's method for measuring IRRBB, broken down by currency (as relevant):

Interest Rate Risk in the Banking Book			
Particulars	Amount in BDT		
Market Value of Assets	300,403,700,000		
Market Value of Liabilities (without shareholder equity)	285,427,800,000		
Weighted Average of Duration of Assets (DA)	2.18		
Weighted Average of Duration of Liabilities (DL)	1.24		
Duration GAP (DA-DL)	1		
Yield to Maturity (YTM -Assets)	7.86%		
Yield to Maturity (YTM -Liability)	3.48%		

	market risk management process that takes into account risk appetite, risk profile, market and macroeconomic conditions. The BOD also approves prudent policies and processes to identify, measure, evaluate, monitor, report market risks on a timely basis.			
b) Methods used to measure Market risk	Fundamentally, MTB applies thy Standardized Approach for gauging market risk while calculating the minimum capital requirement. It is done under two separate approaches, i.e., capital charges for "specific risk," which is designed to protect against an adverse movement in the price of an individual security and capital charge "general market risk," which is aimed at capturing the risk of loss arising from changes in market interest rates. Moreover, the bank also uses gap analysis, stress testing techniques to assume the impact of interest rate changes in earnings and capital base.			
c) Market Risk Management system	To ensure holistic market risk management systems, the bank diligently adheres to the risk management guidelines for banks, FX guidelines, and other Bangladesh Bank directives. The Treasury Department of MTB manages market risk covering liquidity, interest rate, and foreign exchange risks, with oversight from Asset Liability Management Committee (ALCO), which comprises the bank's senior management. Moreover, there are treasury mid-office, market, and liquidity desks under the risk management division to monitor market risk's key parameters.			
d) Policies and processes for mitigating market risk	 parameters. MTB sets limit for various market risk related indicators while preparing business strategies through RAS. The limits are monitored regularly and if needed, revised based on the market dynamism and macroeconomic outlook. The bank has the following Board approved policies to manage and mitigate market risk: ALM Policy: ALM policy of the bank sets out the key principles of effective balance sheet management. It incorporates the apt structure, organizational framework, adequate process, and control mechanism to manage liquidity and interest rate risk. The policy is approved by the BOD and is reviewed periodically to ensure the effectiveness of ALM functions. FX Risk Management Policy: The FX policy manual outlines the general organizational framework, international and domestic customs & practices, monitoring, reporting, and recording day-to-day interbank and corporate foreign exchange transactions.

	8. Operational Risk 8a. Qualitative Disclosure				
a) Views of BOD on system to reduce Operational Risk	Operational risk arises from inadequate or failed internal processes, people and systems; or from external causes, whether deliberate or accidental. It is inherent in any business. The policy for operational risks, including internal control and compliance risk, is approved by the Board, taking into account the relevant guidelines of Bangladesh Bank. The Audit Committee of the Board directly oversees the activities of the Internal Control and Compliance Department (ICCD) with the objective of mitigating all operational risks. Moreover, the bank has a board-approved risk management policy that sets out the organizational framework and sound risk governance culture across the organization.				
b) Performance gap of executives and staff	The bank's recruitment policy outlines an unprejudiced process that underscores competency-based onboarding. Further to that, MTB's human capital development strategy plays a pivotal role in balancing the cognizance across different levels. The bank comprehends that continuous learning and development are fundamental to shore up the value creation from its human capital. Moreover, the bank has an equitable performance management system (PMS) to evaluate its employees' performance. The PMS helps identify the areas of improvement and reduce the performance gaps among a particular group of employees by mapping out development plans. The bank's policies and perks justify its unwavering commitment to the well-being of its employees.				

c) Potential	external events	The impact of external adverse events is a part of systemic risk. There would be unavoidable situations such as macroeconomic turmoil, disease outbreak that could affect the performance of the business in general. The bank's risk management strategies are designed to stave off unforeseen losses erupting from its day to day operation.			
d) Policies and processes for mitigating operational risk		MTB has a risk management division for managing and mitigating operational risk in conjunction with other business lines and support functions. Moreover, the Internal Control & Compliance Department (ICCD) conducts risk-based internal audits on the branches periodically. MTB's risk governance structure, which includes the risk management committee at the board level; executive risk management committee at the senior management level, ensures inclusive risk management culture. The bank has board-approved risk management and internal control & compliance policies to ensure effective processes and adequate systems are in place for operational risk management. MTB has a unique risk forum at the operational level, namely ERAF, which serves as the common platform for the employees to escalate risk issues to the authorities concerned. ERAF plays a significant role in accelerating awareness among the employees on operational risk management.			
e) Approach for calculating capital charge for operational risk		MTB applies basic indicator approach as per Basel III guideline to calculate capital charge for operational risk.

		MTB aims to attract, retain, and motivate the best people who are committed to maintaining a career with the bank, and who will perform their roles in the long-term interests of the bank.			
a) The I remune	bodies that oversee eration	A vigorous and effective governance framework ensures that the bank operates within clear parameters of its compensation strategy. MTB has a comprehensive pay-scale indifferent to all its subsidiaries, regions and business lines. All compensation matters are overseen by MTB Group HR in consultation with the Managing Director & CEO, Additional Managing Director and Deputy Managing Directors. The remuneration and compensation is a process driven system aligned with a structured pay-scale and with proportionate growth by evaluating and anchoring the market conditions and through the adjustment of cost of living. The remuneration and its process are finally approved by the Board of Directors.			
	The Remuneration Policy provides the framework for the employer remuneration of MTB and its subsidiaries, and it is governed by the bo approved MTB Employee Service Rule. As part of the remuneration award within the confines of the Remuneration Policy, fixed salary, short and long-te variable remuneration, gratuity and other benefits are being fixed. There is right to deviate or derogate from this Policy except the discretion of the Bo upon the recommendation from MTB GHR.
